:: How many of your advisors are under 35 years old?

:: How do you as organisation capture new technology and knowledge?

—> The world needs the knowledge of the YS but organisations are not prepared...

## Who are Young Surveyors

To be a 'young surveyors' you must be under 35 years old and either a student of surveying or surveying-related subjects or a young professional who completed an undergraduate or graduate programme a maximum of ten years ago.

- :: YS, are eager to learn, to embrace the latest concepts and paradigms and, with the appropriate guidance
- :: YS can definitely make a valid contribution within our profession and society
- :: YS can be sources of inspiration, and their open outlook and affinity with technology can be key in today's rapidly changing world.

## What the FIG YSN does...

- :: *Explore* the needs of Young Surveyors worldwide and
- :: *Prepare* them for their future roles through mentoring and training
- :: *Encourage and Enhance* Young Surveyors to be the Surveyor of Tomorrow - to be the agent of Change

With the knowledge gained through the Training of Trainers events the

**YS** are going to be champions of STDM in their regions but also worldwide

**YS** are able to assist in further re- search and support UN-Habitat/FIG in rolling-out STDM at country level.

## FIG YSN UN-Habitat/Global Land Tool Network

Social Tenure Domain Model Trained Trainers Overview (2013 - 2017)

:: This number does not include trainings at Universities which is conducted by those trained YS (e.g. ITC...)

:: It is not about the tool - it is about the concept and the understanding and the ability to adapt to current issues

:: So far we conduct trainings on the concept & tool level - something yet not included is the knowledge on the need of standards

:: this ToT is a powerful tool - itself to bring YS worldwide together - and for some it is an eye-opening experience to see the whole process of STDM

:: YS have the knowledge to improve the procedures but not management position

# STDM

## FIG YSN UN-Habitat/Global Land Tool Network

Social Tenure Domain Model Trained Trainers Overview (2013 - 2017)

:: 70% of unregistered people-land relationships

:: its obvious that this can not be done with the current approaches

:: platform of mentors and skilled professionals who are thinking out of the box
